Dude. Despite the general air of TSTL surrounding the Gotham Police Department, that was pretty cool.

I had a brief blank on what TSTL could mean, so I used my secondary brain (which is to say Google) to figure it out. The first result I got was "Thus sayith the Lord", which would be really kind of funny.

I'm guessing that those who were TSTL did not, in fact, live long?

Some did. Some didn't.

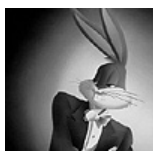

Their prisoner handling procedures need some serious work.

We're so getting a babysitter to go see this one. It'll be my first movie in a movie theater in about 2.5 years. Yay!!!

I don't have a violinist! I'll NEVER see the movie!

[cue, oddly enough, the world's smallest violin]

I'm looking at a Friday matinee, here. With friends, if there's any available. Without, if that is what is needed.

Nighthawks at the diner, Emma's 49er. There's a rendezvous of strangers down at Arkham House tonight.....Ya know that works too well. WAYYY too well. (and explains a lot too)

That was indeed TOTALLY AWESOME!!!

Best Bats film ~~ever~~ to date.

And Ledger had the talent, for sure, even if he was less than impressive in person, I keep hearing.

I saw it with fam and friends on Sat morning. Despite a few holes (yeah, lets just leave the Joker in a room full of people. It'll work out well), it was full of epic win.

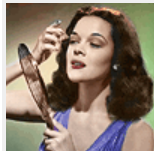

And now for a magic trick. . .

Spoiler warning(sort of)

Tah Dah!!

Let's just leave the Joker in a room full of people. Let's leave the cleared route when transporting the prisoner, rather than just driving on the British side of the street. Let's leave the physically dangerous psychotic unrestrained in an interview room with one cop watching him... from inside the unlocked door. (And when we do have him handcuffed, let's not lock him to the loop under the table.)

They did fake me out with Gordon, though. I knew he wasn't dead, but I thought the guy driving the transport van was one of the Joker's, or maybe the man himself.

Yeah, I thought the same thing. The silent driver reminded me of the beginning of the movie.

And in the el_jefe director's cut, the Joker made creative use of dinner forks on the guests. *evil grin*

I did like that nobody in this movie actually has *superpowers*. Magitech, sure. Psychotic strength, sure. Uncanny luck, the ability to come and go like the wind, standing up and walking around after being horribly burned....

But you know. Not *superpowers*.

Come on, you don't think that moving from a system with a red star to one with a yellow star would grant you the ability to fly??? It's plausible. Honest.
